What is ASCEND - Active NS 5Tx5T Model Portfolio?

ASCEND - NS Active 5Tx5T Model Portfolio is a fundamental, growth-oriented equity strategy designed to participate in India's long-term wealth creation opportunity. The portfolio follows a disciplined investment approach combining bottom-up stock selection with top-down insights to identify companies with strong growth potential and evolving value characteristics.

Positioned as a core buy-and-hold portfolio, ASCEND aims to build a diversified mix of high-quality businesses across sectors and market capitalizations, balancing stability with long-term outperformance potential.

Key Features

Core Long-Term Strategy
Designed as a buy-and-hold portfolio to capture India's structural growth story.

Balanced Market Cap Exposure
Invests across large, mid, and small caps to combine resilience with growth potential.

Growth in Value Approach
Focuses on companies where growth potential is supported by improving value characteristics.

High-Conviction Portfolio
Concentrated portfolio of 15-25 stocks backed by deep research.

Our Investment Edge

Universe
The strategy evaluates companies across sectors and market caps within the broader equity market, focusing on businesses aligned with India's long-term economic growth.

Process
ASCEND follows a rigorous bottom-up research approach, supported by:

- **Information mining and detailed company analysis**
- **Financial modeling and earnings assessment**
- **Investment thesis development**
- **Continuous monitoring of changes in earnings and business quality**

This is complemented by a top-down perspective to identify emerging opportunities across industries.

Strategy
The portfolio aims to identify companies demonstrating "Growth in Value" characteristics, where improving business fundamentals and market opportunities can drive long-term value creation. The strategy seeks to balance sector diversification with high-conviction ideas.
