IMP Intelligent Model Portfolios

VS Bluechip Edge Model Portfolio

VS Bluechip Edge Model Portfolio follows a high-conviction, fundamentally driven investment approach with multiple parameters to identify stocks with strong growth potential and superior risk-adjusted return prospects over the medium to long term, across sectors and market capitalisations.

Key Features

Multi Prone Stock Selection:
Combines Value, Momentum, Quality, Market Share and Smart Money indicators

Fundamental Strength Focus:
Preference for undervalued companies with strong earnings visibility and balance-sheet quality

Institutional Validation:
Stocks with sustained DII and FII participation indicating confidence of large investors

Broad Market Coverage:
Universe of NIFTY Total Market (Top 750 stocks) for flexibility across large, mid and emerging leaders

Our Investment Edge

Universe
The strategy evaluates stocks from the NIFTY Total Market universe (Top 750 companies), covering leaders and emerging opportunities across market caps and sectors. This wide universe enables identification of high-quality businesses at different stages of growth.

Process
A multi prone screening is applied, combining valuation comfort and earnings growth potential, profitability and balance-sheet strength, price momentum and market leadership, along with institutional ownership trends.

Strategy
Build a portfolio of best-in-class businesses with competitive advantages, strong fundamentals, and improving market recognition.
